ENHANCEMENT REVIEW REPORT

SOCIAL SCIENCES

FY 2008-09

Introduction

The Social Sciences Review Panel consisting of Dr. John Johannes, Vice President of Academic Affairs, Villanova University; Dr. John Pauly, Provost, Marquette University; and Mr. Roy Knight, Professor of Architecture, Florida A&M University, met January 19, 2009 in Baton Rouge, Louisiana, to evaluate twenty-one (21) proposals submitted to the Louisiana Board of Regents requesting funds through the Enhancement component of the Boards of Regents Support Fund.

The panel received the following materials prior to the visit: (1) all proposals and appropriate rating forms; (2) a summary of the proposals submitted listing titles, PIs, their institutions, and funds requested; (3) a copy of the most recent Social Sciences report (FY 2005-06); and (4) the FY 2008-09 Traditional and Undergraduate Enhancement Request for Proposals containing criteria for evaluation. After studying all proposals, the panel met in Baton Rouge to review and evaluate them. During the review each proposal was discussed individually and its merits were evaluated with respect to criteria detailed in the RFP. Each proposal received a thorough and impartial review. Subsequent to the individual evaluations, the panel ranked all proposals and recommended funding levels for those deemed worthy of funding.

The twenty-one (21) Social Sciences proposals submitted in FY 2008-09 requested a total of $2,794,468 in first-year funds. Nine (9) proposals were highly recommended for funding, all at reduced levels.

Table I contains a rank-order list of proposals highly recommended for funding, together with the recommended funding levels. Table II contains a list of proposals recommended for funding if additional money becomes available. Table III contains a list of proposals not recommended for funding. A detailed review of each proposal follows immediately after the tables. A summary of all proposals submitted (Appendix A) and a copy of the rating forms used in the evaluations (Appendix B) are attached at the end of the report.

RECOMMENDATIONS: Recommended Amount: $0

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

The proposal is adequate but repetitive and, in the end, unpersuasive. The pedagogy is vague; specific examples of how the courses will lead to technology skills would help. Is Avid technology, in fact, where the industry is going? Were other options explored? The outcomes assessment is not very well presented, and repeated assertions that students will use technology are not compelling. The pre-test and post-test items on page 10 do not line up consistently, leading to questions concerning the precision of the assessment. The impact on faculty is not adequately or persuasively made clear. The panel does not recommend funding.

### G. Total Score: 46 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

**SPECIFIC BUDGETARY REQUESTED AMOUNT:** $86,618

**RECOMMENDATIONS:** Recommended Amount: $0

**COMMENTS:**

This is a very good idea in principle, but the project is naïve in design and in the expectations of results. The proposal is too vague: the nature of the data to be gathered needs greater specification. How does one gather data without clear hypotheses or a clear research design? The link between the plan and student learning is not as sharply described as it should be. Indeed, one does not need a project like this to teach students about Hurricane Katrina, economics, or how to do a case study. How the faculty will utilize the data is difficult to determine, given no clear research design. Overall the project, if it is to be done well, requires far more than one junior faculty member and a bunch of undergraduates. This is major scholarship and requires a stronger team and much more time than is anticipated to bring it off. The cooperation with the University of Houston should be guaranteed before the proposal is submitted, not after. In short, this project appears excessively ambitious, and the panel doubts it can be implemented as panned. The panel does not recommend funding.

</tbody>
</table>

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a straightforward start-up project intended to take a minimalist program to a high-end level, seeking to make a major leap forward. The Mac computer lab would serve a wide number of students and purposes and it is the strongest part of the proposal. The proposal is vague in many places, lacking crispness and precision; there is an unclear intellectual vision of the program and little explanation of the overall purpose. The institutional match for the lab is noteworthy. There is a real question concerning the need for and overall value of the studio, especially since the trend in the discipline seems to be away from studio-based programs. The State of Louisiana already has high-end programs in place. Is one needed in Alexandria? Assessment is weak; the reliance on student surveys is not a persuasive measure of the learning or project outcomes; something more direct is needed. Funding is recommended for the Mac lab only. The institutional match may be reduced proportionally.

**COMMENTS:** (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This proposal is sensible but not compelling. It is not clear how many faculty or students will be affected by the project, nor that having graduate students teach the undergraduate research course is the most effective instructional strategy. The online workshop is intriguing, but it is not precisely described or well explained, leading one to wonder if this has been thought out. The link between successful implementation of this project and the achievement of the broader goals is not sufficiently explained. The plan for assessment of outcomes is not strong, and it is not clear that the Board would be able to measure success. Finally, the institutional salary match is not clear: does this mean a course buyout? Is it real and consequential? The proposal is a bit of a "grab bag" of initiatives that are largely matters that should be done routinely. The importance of the speakers series is not persuasively argued. The panel does not recommend funding.

SPECIFIC BUDGETARY Requested Amount: $45,348
RECOMMENDATIONS: Recommended Amount: $42,000

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a sensible proposal. The importance of the hardware is obvious, given the intentions of the proposal, but the description of the equipment's and software's capabilities relative to the educational goals could have been more detailed. The current situation is not described well. The research projects are sound, but it is not clear how this particular equipment will facilitate them. There should be an explicit explanation of how the instructional function will be enhanced. Finally, the achievement and measurement of project success are not made clear. The panel recommends partial funding and believes that the software costs should be covered by the department, college, or University. The institutional match should be maintained in full.

(Note: Proposals with a total score below 70 will not be recommended for funding.)

SPECIFIC BUDGETARY REQUESTED AMOUNT: $103,255
RECOMMENDATIONS: Recommended Amount: $103,255
(If additional funds become available)

COMMENTS: This is a sound proposal from a well-established group of scholars in a strong school. The proposal essentially asks for two additional eye-trackers to enhance the two already in operation. The rationale seems to be that being able to handle a larger number of subjects will enhance prospects for grants and improve student training. These assertions must be taken on faith. The question is whether the degree of enhancement is sufficient to warrant the funds requested, especially relative to other worthy proposals. The panel recommends full funding if additional funds become available.

(Note: Proposals with a total score below 70 will not be recommended for funding.)

SPECIFIC BUDGETARY REQUESTED AMOUNT: $110,900
RECOMMENDATIONS: Recommended Amount: $110,000

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a sensible and sound proposal for a top-end file server that is essential to the program. The program is an important one and is well connected to external partners. Strong faculty are involved. The goals and objectives could be more clearly and forcefully described. The work plan is not very detailed. There is not much evidence or argumentation concerning the impact on teaching, pedagogy, or faculty development. The cost sharing appears to be sketchy: assigning staff time to something like this is not very persuasive. The assessment measures are weak. However, this is a worthy project and the panel recommends partial funding with reductions to be made at the discretion of the principal investigator. The institutional match should be maintained in full.

SPECIFIC BUDGETARY REQUESTED AMOUNT: $118,343
RECOMMENDATIONS: Recommended Amount: $118,000

COMMENT: This seems to be a very strong and active group of faculty doing important work in their field that extends internationally. They would make good use of the funds. The project promises enhancement of an already strong program. The proposal explicated specific and persuasive intellectual goals, and it shows how the requested equipment serves these goals. The lack of a more tangible and substantial match is disappointing. The panel recommends partial funding, with reductions to be made at the discretion of the principal investigator. The institutional match should be maintained in full.

**G. Total Score:** 66 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

**SPECIFIC BUDGETARY RECOMMENDATIONS:**

- **Requested Amount:** $195,993
- **Recommended Amount:** $0

**COMMENTS:** (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a sound and sensible proposal, which essentially is a "rescue" operation for a collection whose value is not clear. This is not "enhancement". The description of the current situation (one of dire need) is excellent, and the project plan goals are well chosen and well described. The project seems better suited for a two-year duration. Alternatively, a selective approach might be better wherein a particularly and clearly valuable portion of the collection becomes the target for this effort. The panel would have a more positive view of this project if the University itself had invested in it, a lack that raises questions about the value of the collection and the commitment of the University to its preservation. It is a big risk to hire key personnel for only ten months. It would seem wiser to rebudget this for two years: hire one top-level person for two years, eliminate the second professional, and use only one graduate student the second year. Finally, there is no assurance that this effort will continue. The past history of efforts to catalog and maintain the collection does not inspire confidence. The panel does not recommend funding.

### H. Total Score: 83 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

**SPECIFIC BUDGETARY REQUESTED AMOUNT:** $149,205

**RECOMMENDATIONS:**

**RECOMMENDED AMOUNT:** $141,000

**COMMENTS:**

This is a well designed and well written proposal. It would be stronger if there were concrete examples (such as an illustration of a product) of how the equipment will work in practice. The performance measures do not adequately address the educational or instructional outcomes (the description is about "inputs" rather than achievement), but the faculty involved constitute a strong group that undoubtedly will deliver on their promises and utilize the equipment well. The panel recommends partial funding, with the institutional match to be maintained in full. The University should fund the two desktop and two laptop computers.
This is a weak proposal with two major flaws. First, it is not clear why the Enhancement Program should support recruitment of students to one particular major, presumably at the expense of another. Second, it is not clear that the proposed equipment or the dedication of the faculty's time and effort will achieve the stated goals. The fact that there is no institutional match speaks volumes about the inherent importance of this proposal to the University. Perhaps it would be better to focus on one key aspect, such as the summer academy, and resubmit or seek funding elsewhere. The panel does not recommend funding.

(Note:  Proposals with a total score below 70 will not be recommended for funding.)

SPECIFIC BUDGETARY REQUESTED AMOUNT:  $38,621
RECOMMENDATIONS:  Recommended Amount:  $38,500

COMMENTS:  (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is an appropriate request by the department faculty to enhance the tools of their trade. The potential for links to the textile industry strengthens the project. The proposal itself is not as well written as it should be, and it is repetitive. The plan for assessing the achievement of objectives is weak. There is a need for objective measures of increased student learning. Many of the expected results are couched in the conditional tense. The precise nature of the "enhancement" of courses and the overall education of students is unclear. An example or two would help. These weaknesses not withstanding, the panel recommends partial funding. The panel does not recommend funding for shipping and handling and believes the University should be willing to cover those costs.

### G. Total Score: 66 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

#### SPECIFIC BUDGETARY REQUESTED AMOUNT: $22,465

#### RECOMMENDATIONS:
Recommended Amount: $0

**COMMENTS:**
(Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a marginal proposal with some redeeming values, such as the notion of leadership development. The leadership education component, however, is inadequately described and conceptualized. There is little actual leadership experience in the program. A "ropes" course and some lectures and films do not constitute leadership training. The assessment portion of the plan yields a relatively weak set of results that may or may not measure leadership development. How does a student demonstrate leadership? The "performance measures" are not measures; they are goals and objectives. The panel was also disappointed in the institutional match and does not recommend funding for the proposal.

**SPECIFIC BUDGETARY Requested Amount:** $155,506

**RECOMMENDATIONS:** Recommended Amount: $155,300

**COMMENTS:** (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a sound proposal from a solid program linked to the National Parks Service, and it is worthy of funding. However, there are issues in the proposal that the writers might wish to consider. The proposal often lacks clarity and precision and it is too wordy. It is often repetitive and contains too much information that is only marginally useful. It is not clear how many students will be affected. The proposal fails to explain exactly what the equipment will do and the consequences thereof. The institutional match is claimed to be significant, but there is no explanation of the biggest item in the budget justification, listed in the budget in the category "G. Other". The panel recommends partial funding, with reductions to be made at the discretion of the principal investigator. The institutional match should be maintained in full.

YEAR 1 REQUESTED AMOUNT: $58,500
YEAR 2 REQUESTED AMOUNT: $44,450

SPECIFIC BUDGETARY RECOMMENDATIONS: Requested
Recommended
Amount: $0
Amount: $0

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

The proposal is very vague and hard to follow, and is laden with disciplinary jargon. It is not clear exactly what is going to be done, why much of this requires Enhancement Program funding, or how this will enhance eminence. The description of current activity is very useful, but questions remain as to precisely what the impact of the project will be and how it can be measured. Because the equipment is a minor portion of the proposal, why is this submitted as primarily an equipment request? Most of the funding is for training, yet training receives little attention in the proposal. The panel does not recommend funding.
This is a well written proposal, but the need is not clearly presented. It is an expensive, high-end solution to the issues of broadcast education. The proposal conflates digital video (crucial to broadcast education and an area of accreditation concern) with HDTV (not required for accreditation). The assessment section is weak. It is not truly clear how this is going to make a big impact on students' education, which for half a million dollars would seem crucial. How will we know if this project is successful in enhancing education and elevating the department's effectiveness and prestige? Due to the limited funds available for this competition, however, the sheer size of the proposal makes it very difficult to fund relative to other very worthy proposals. That said, this is a well-crafted enhancement initiative and the panel recommends partial funding if additional funds become available, with the institutional match maintained in full. The University should cover costs of lighting and miscellaneous items.

SPECIFIC BUDGETARY
Requested Amount: $102,603
RECOMMENDATIONS:
Recommended Amount: $95,000

(If additional funds become available)

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This proposal would serve three programs which spreads the potential impact. However, there are questions about the academic value of this. The intellectual importance and consequences are not clearly or persuasively indicated. The project's goals seem to lie in the realm of technical details in the process, details that students might well need to know; but do they need this kind of equipment? Why do they want to do this testing? If this were a program relating to the creation of new textiles, this would be a stronger proposal. Are the textiles coming from Louisiana? Are they just bringing in materials to test so that students know how testing is done? These questions are not answered, though presumably they could be. Given the project's potential impact, however, the panel recommends funding for the equipment only if additional funds become available. The institutional match should be maintained in full.

**SPECIFIC BUDGETARY**

- **Requested Amount:** $28,031
- **Recommended Amount:** $25,200

**COMMENTS:** (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

The rationale of the proposal is clear: to make special collections material more available and preserve it. These are worthy objectives. There are some valuable documents worthy of preservation and dissemination. However, the curriculum and student retention aspects are limited in scope. This equipment helps prepare for future acquisitions as well. The only questions concern the relative importance of this proposal with respect to other proposals and the nature of the demand for these materials even if they are digitized. The panel recommends partial funding. The university should cover the costs of installation, software, and supplies. The institutional match should be maintained in full.

**H. Total Score:** 60 (of 100 points)

(Notes: Proposals with a total score below 70 will not be recommended for funding.)

**SPECIFIC BUDGETARY REQUESTED AMOUNT:** $24,529

**RECOMMENDATIONS:** Recommended Amount: $0

**COMMENTS:** (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a modest proposal requesting computers and a "walk-up" scanner, the educational value of which is not entirely obvious. The case for the enhancement aspect is not well made. The proposal is not organized and presented according to the guidelines. There is no plan for assessment of goal achievement (the goals listed at the outset). Overall, the project is marginal when considered against the other proposals. The panel does not recommend funding.
RATING FORM FOR ENHANCEMENT REQUESTS
OTHER THAN EQUIPMENT PURCHASES

INSTITUTION: University of New Orleans

G. Total Score: 81 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

YEAR 1 YEAR 2
SPECIFIC BUDGETARY REQUESTED AMOUNT: $94,095 $73,176*
RECOMMENDATIONS: $94,000 $50,000

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a strong proposal, though the budget justification is poorly organized, hard to follow, and lacks detail. There are some typographical errors, such as the substitution of "capitol" for "capital" and "impetuous" for "impetus". It is not clear precisely what the faculty salary funds are buying: how much teaching time is being released? Moreover, the 35% salary seems to exceed the 25% salary limit, unless some of this is requested for summer. This matter must be clarified before a contract is issued. The budget for the second year exceeds the allowable $50,000. The panel's biggest question is whether UNO will guarantee continued operation of the clinic and support for graduate students once the grant period has expired. There are indications that UNO is committed to the project (e.g., restoration of the facilities). The expectation is that clinic fees will sustain the operation, but that is uncertain. Overall, however, this is an important idea and a worthwhile project. The panel recommends partial funding, with reductions to be made at the discretion of the principal investigator. The institutional match must be maintained in full.

*The RFP restricts 2nd year funding to no more than $50,000.
INSTITUTION: University of New Orleans

TITLE OF PROPOSAL: Infrastructure Enhancement for 4K Digital Cinema Production Pipeline

PRINCIPAL INVESTIGATOR: Robert M. Racine

H. Total Score: 72 (of 100 points)

(Note: Proposals with a total score below 70 will not be recommended for funding.)

SPECIFIC BUDGETARY REQUESTED AMOUNT: $286,433
RECOMMENDATIONS: $286,433

(If additional funds become available)

COMMENTS: (Discuss proposal strengths and weaknesses, particularly in those sections where significant point deductions have been made. Include suggestions for resubmission. For proposals recommended for funding, include all applicable stipulations in budgets and scopes of work.)

This is a solid proposal that the panel would like to fund if it were not so costly and if enough money was available. This is cutting edge technology that represents a major step forward for the program, as well as a significant expense; it is likely that the cost of this equipment will decrease in time, suggesting possibilities for future funding. One weakness is that the individuals responsible for the work plan are not specifically identified. The institutional match is impressive. The panel recommends full funding if additional funding becomes available.

Rating Forms
RATING FORM FOR TRADITIONAL AND UNDERGRADUATE ENHANCEMENT PROPOSALS
PURCHASE OF INSTRUCTIONAL AND RESEARCH EQUIPMENT

INSTRUCTIONS: The completed evaluation form should represent the consensus of the expert members of the review panel and, as such, must reflect the final decisions of that panel. Review this form and the program guidelines prior to reading the proposal. The higher the score, the more clearly the proposal satisfies the criterion under consideration. Guidelines should not be interpreted to exclude from eligibility departments and/or units engaged solely in instruction. Use the white space provided to explain the panel's ratings, especially on items given low scores. Attach additional pages, as necessary.

A. THE CURRENT SITUATION--Total of 10 points

**YES____ NO_____ A.1** Has the applicant adequately described the institution and unit(s)/department(s) that will benefit from the proposed project, especially in terms of mission, faculty, students, and relevant institutional or departmental resources?

_____ of 5 pts.  A.2 To what extent will the proposed project enhance the affected department(s) or unit(s)?

_____ of 5 pts.  A.3 To what extent will the project complement and improve upon existing resources of the department(s) or unit(s)?

COMMENTS:

B. THE ENHANCEMENT PLAN--Total of 52 points

_____ of 5 pts.  B.1 Are the goals and objectives clearly stated? Can the objectives be completed within the timeframe detailed in the proposal?

_____ of 15 pts.  B.2 Does the work plan sufficiently describe the activities that will be undertaken to achieve the goals and objectives of the proposal with responsible individuals listed for each activity, a schedule of activities with benchmarks to be accomplished, and a description detailing how each objective will be evaluated?

_____ of 20 pts.  B.3 To what extent will the proposed project catapult the department(s) or unit(s) into attaining a high level of regional, national, or international eminence--or maintaining a current high level of eminence--commensurate with degree offerings and/or functions?

_____ of 5 pts.  B.4 To what extent will the proposed project have an impact on the variety and quality of curricular offerings and instructional methods within the affected department(s) or unit(s)? Appropriate to current thinking in the specific field(s) or discipline(s) of the proposed project, is reform of undergraduate education and/or teacher preparation encouraged?

_____ of 2 pts.  B.5 To what extent will the proposed project enhance the ability of the department(s) or unit(s) to attract and/or retain students of high quality, particularly high quality students from Louisiana?

_____ of 5 pts.  B.6 To what extent will the project contribute to improving the quality and effectiveness of faculty teaching and improve faculty pedagogical practices within the context of current thinking on reform of undergraduate education and teacher preparation, specific to field(s) or discipline(s) of the proposed project?

No Points Given, but this is a required component.  B.7 Does the proposal indicate how the Board of Regents or other entity will determine whether or not the project has been a success and the degree to which it has achieved its goals?
C. EQUIPMENT--Total of 10 points

____ of 6 pts.  C.1  To what extent has the proposal established a relationship between the enhancement plan and the items of equipment requested? Is the equipment well-justified? Will it significantly enhance the existing technological capability of the department? Does it reflect current and projected trends in technology?

____ of 1 pt.  C.2  Has there been a thorough survey of the current equipment inventory and does the proposal plan to make full use of it?

____ of 3 pts.  C.3  To what extent does the proposal present a reasonable plan to ensure a maximum usable lifetime for the equipment? Are housing and maintenance arrangements for equipment adequate?

COMMENTS:

D. FACULTY AND STAFF EXPERTISE--Total of 12 points

____ of 12 pts  D.1  Are the faculty and support personnel appropriately qualified to implement this project? If special training will be required for faculty and/or other personnel, has an appropriate plan been developed?

COMMENTS:

E. ECONOMIC AND/OR CULTURAL DEVELOPMENT AND IMPACT--Total of 12 points

____ of 2 pts.  E.1  To what extent will the project assist in establishing a new relationship, or strengthen an existing relationship, with one or more industrial/institutional sponsors (e.g., private business, trade organization, professional organization, non-profit or community organization, another university or consortium of universities, federal government agency)?

NOTE TO REVIEWER: Depending on the discipline of the submitting department or unit, provide rating points for either E.2a OR E.2b:

____ of 10 pts.  E.2a  For science/engineering proposals only: To what extent will the project assist the submitting department(s)/unit(s) in promoting or enhancing the economic development of the State of Louisiana?

____ of 10 pts.  E.2b  For non-science/non-engineering proposals only: To what extent will the project contribute to the academic and/or cultural resources of the State of Louisiana?

COMMENTS:
F. ADDITIONAL FUNDING SOURCES--Total of 4 points
   _____ of 4 pts.  F.1 To what extent will the costs associated with this project be shared through contributions from the institution(s) involved and/or external organizations?

COMMENTS:

G. PREVIOUS SUPPORT FUND AWARDS--No points assigned
   YES___ NO_____  G.1 If the Project Director or Co-Project Director has received previous Support Fund support, has it been adequately documented?

COMMENTS:

H. TOTAL SCORE (NOTE: Proposals with a total score below 70 will not be recommended for funding.)
   _____ of 100 points

SPECIFIC BUDGETARY RECOMMENDATIONS
Requested Amount $__________________  Recommended Amount $__________________
